Comment:

The list of importers for poultry, red meats, rice, cotton and juices in Bulgaria has been contracted with the local marketing company Noema Ltd. Information in these lists of importers is sourced from official import customs declarations for CY2001. Customs declarations are considered to contain not public data but are the only source of actual updated information on imports in Bulgaria. The contractor has confirmed the court registration of each company. Information about the address, contact person, phone and fax numbers is also confirmed.

The U.S. exporters are encouraged to contact FAS Sofia for any further assistance.
